NEWS AND VIEWS...

And What Have You

By BOB CRAIG

As most of you know by now, there will not be a Herald printed next week. This will be vacation week for our entire staff. We tried this for the first time last year and enjoyed it so much that we are going to do it again this year.

Just hope that our skipping this issue does not inconvenience anyone too much, but we have found that this is just about the only way that a weekly newspaper publisher and his family can get enough time off for a vacation.

Our office will be closed Thursday, July 4 and will reopen Monday, July 15.

The following editorial has been prepared by the Honor America Committee of the American Historic and Cultural Society and we feel is worth repeating in this space:

A DAY TO HONOR AMERICA

July 4th, 1974

John Hancock of Massachusetts signed the Declaration of Independence with a bold, elaborate and most legible flourish. It was followed by the signatures of 55 others from the 13 American colonies, 198 years ago today.

And in signing this document they called their erstwhile colonies, "FREE AND INDEPENDENT STATES", by appealing to the Protection of divine Providence (the capitals are theirs) and did "mutually pledge to each other our lives, our Fortunes, and our Sacred Honor."

On July 4, 1776, this was no empty pledge. It meant very starkly that each signer had affixed his signature to his own death warrant. Each inscription convicted its perpetrator, automatically, of treason.

Yet such was the overwhelming strength of their patriotism in their fledgling nation that they pledged their all that it might be achieved.

And in years of battle, blood, hardship and often despair, it was achieved. Today nearly two centuries later, we of America are still a nation bound by the principles set forth in that Declaration and in the Constitution which followed it.

John Adams, second President of the United States, wrote of July Fourth—"It ought to be solemnized with pomp and parade, with shows, guns, bells, bonfires, and illuminations, from one end of the country to the other, from this time forever more."

Our nation has survived much, from minor upheavals to major corruptions, to bloody civil war. But that Declaration and that Constitution remain intact. We still pledge to them our lives, our fortunes, and our sacred honor.

And in these troubled times, more than ever, we might take heed of one of our most prominent contemporary constitutional lawyers, Louis Nizer, who in a recent address at New York University Law School, said:

"Ours is a great and noble nation. We must not give vent to despondency or skepticism... our great nation couldn't have achieved its eminence in science, business, and culture without a healthy core..."

We hold these truths to be self-evident...

And by honoring America's founders we also honor America, itself.

Honor America July 4

Hospital District Seeks Rendition of Properties

The Hamlin Hospital District mailed out notices this past week to all property owners within the newly created district seeking the rendition of property for the initial tax roll.

Property that is not rendered by the owner before Tuesday, July 30, 1974, will be rendered by the Hospital District Tax Assessor Charles Absher at the same values it is currently listed on the tax rolls for the City of Hamlin, Hamlin Independent School District and Jones County.

The Board of Equalization for the district will hold its initial meeting at 10 a.m.

Carport Sale Raises \$522 For Retarded

The three-day carport sale for Camp Roadrunner and donations netted \$522.08, according to Mrs. C. L. Howard, who held the sale at her home Thursday, Friday and Saturday.

She was assisted by neighbors and friends in the project.

When expressing her thanks for the tremendous response and cooperation in the sale, she said "We hope to make it possible for all who can to attend the camp."

She said anyone interested in the residential camp for mentally retarded should contact her for an application blank. Camp Roadrunner will be directed by Mrs. Howard's daughter, Mrs. Jaylon Fincannon, now of Austin, who with her husband started the camp seven years ago. Mrs. Howard will be a counselor. A staff member for each five campers is planned.

The camp will be held July 13-20 at the Butman Methodist Church Encampment.

Mentally retarded persons ages 12 years and over, of any race, may attend. The majority of these children will fall within the trainable or educable categories as devised by the Texas Education Agency. Campers should be ambulatory, capable of feeding and dressing themselves and able to communicate their basic needs. Other qualifications for campers are included on the application blank.

Camp Roadrunner serves a 30-county area in Central Texas. Accommodations will be available for approximately 100 campers. Applications are taken on a "first come-first served" basis.

Aug. 12 in the Council Chambers of the Hamlin City Hall.

The tax roll for the Hamlin Hospital District must be created before the District can sell any of the bonds approved by the voters in the December election. Following the completion of the tax roll, the district will then offer the bonds for sale and then can proceed with the purchase and remodeling of the facilities of the Hamlin Hospital to meet the Federal and State requirements.

Those who desire to render their property and state its fair market value must do so at the Hamlin City Hall during regular business hours by Tuesday, July 30.

J. A. Favors Paying for Cities' Mass Transit If It'll Keep the People There

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One tries to come to the rescue of the big cities this week, we think.

Dear editor:

The mayors of the major big cities in the U.S., according to an article I read in a newspaper yesterday, are asking the Federal government for 18 billion dollars to help pay for mass transit systems.

Their argument is that automobiles are choking the cities, that modern subways and other mass transit systems are needed if cities are going to continue to function, and that the cost of building and operating the systems is too great for any

city to bear.

Now at first thought you might ask, why should somebody living on a place like this Johnson grass farm out here have to help pay for a big city's subway system? If Boston or New York or Los Angeles people for example haven't got the ability to operate their cities, let them close them down.

Then I got to thinking further. You shut down the big cities and what's going to happen? The people will spread out and ruin the countryside. It's the last thing I'd want to see happen. It's bad enough with all the bottles and beer cans we have to contend with, but you add people too and the countryside is gone.

Up to now, by some crafty propaganda, we country people have managed to keep most of the population cooped up in big cities where everybody thought all the advantages were, and if it takes an extra tax on this Johnson grass farm to keep them from catching on and

breaking out, I'm willing to pay it.

Furthermore, if us country people are on our toes we'll start a campaign to keep cities from spreading out. Look at nearly any big city and you'll see rows and rows of houses about three feet apart going up on the out-

skirts and extending further and further out in the country. Those houses ought to be stacked on top of each other back inside the city limits. I'm not interested in paying for a subway system that goes all over creation. By the way, a developer came by here the other day asking if I'd be interested in selling my farm. Said it'd make a good sub-division. I'm waiting to see what his offer is.

Yours faithfully,
J. A.

FROM THE FILES . . .

FIFTY YEARS AGO
(July 4, 1924)

The various committees in charge of the picnic and barbecue that is to be held at the park ground, July 15th, and 17th, have planned to tour the different towns in this territory, July 10th and 11th, and to create an enthusiasm for the big two-day gathering. In order that we may make the boosting trip two gala days and stir the people of other towns to participate in our celebration, WE ARE URGING every citizen in and about Hamlin to join the "wild gang," promptly at 8:45 on the block north of the Wilson Motor Company. We will need just as many cars as we can possibly secure, and are asking every one who has an available automobile, to notify either O. K. Wilson or John Ed Day, immediately, in order that the trips may be planned in detail before the day arrives for the tour.

Our plan is to make the tour a comical one; the more ridiculous and absurd dress that can be worn will be the more appropriate for the occasion; we want all to be comically appareled and to behave like school boys when a holiday is announced.

TWENTY YEARS AGO
(July 2, 1954)

Final tabulation of expenditures made by the Hamlin Cemetery Association in installing the water system at the cemetery recently showed a total of \$3,847.87 expended on the project, according to Lennie Greenway, secretary, treasurer of the association.

Expenditures were itemized in the tabulation as follows: Morrison Supply Company for pipe, hydrants, supplies, etc., \$2,505.48; labor, \$47.64; water meter and connecting charge to city, \$22.40; Joe V. Boyd of Anson, for bringing water under highway and Katy right-of-way,

\$902.77; tool shed, containing water control, \$369.58.

Water will be available for all cemetery lots from 7:00 a.m. to 7:00 p.m., Monday through Friday, association officials declare. People interested in the maintenance of the cemetery are urged to use it for the purpose it is intended.

"Until some agreement is reached with the city, the cemetery association will pay the water bill, at least as long as we can," said Miss Greenway.

"We would like to urge that you to be careful in using the drives and not run over hydrants and break them," she continues. "This has been done, but we know it was unintentional."

New type radar automobile speed checking equipment was given a demonstration test at Hamlin Tuesday afternoon north of the Katy Railway depot on Highway 83. In charge of the demonstration were Ross Kent of the Abilene office of the Department of Public Safety, and Billy Davis, highway patrolman from Stamford.

TEN YEARS AGO
(July 2, 1964)

Mrs. Gerald Young, a native of Canada, became a naturalized citizen of the United States in ceremonies held last week in Abilene. A resident of Hamlin since 1949, Mrs. Young was born in Ottawa, Ontario, Canada. The former Reta Hall, she met Mr. Young while visiting with friends here in Hamlin.

Mr. and Mrs. Young and children, Michael, 13, Jan, 12, Gerry, 7 and DeDe, 5, plan to visit in Ottawa in August after Michael returns from the Boy Scout Jamboree.

They will visit with Miss Florence Castonguay, Mrs. Young's aunt who reared her, and Charles Russell Hall, Mrs. Young's brother who is an officer in the Canadian Army in Army Intelligence.

IN TRAFFIC ACCIDENTS—
DPS Director Predicts
Holiday May Claim 42

AUSTIN—Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today estimated that traffic accidents during the 102-hour July 4th holiday weekend would claim 42 lives in Texas.

Speir, who did not make an estimate for the Christmas-New Year period because of rapidly changing conditions brought on by the energy crisis, said the traffic situation has become more stable in recent months. He noted that gasoline is readily available in most sections of the state, and pointed out that this would probably bring additional traffic to the highways during the approaching holiday.

The July 4th holiday last year, which was only 30 hours in length, resulted in 13 traffic deaths in Texas. The 1972 holiday, which was 102-hours long—the same as the upcoming period—was marred by 80 deaths.

The DPS director pointed out that excessive speed and drinking drivers would make the largest contribution to the fatal accident toll, and he warned that all available DPS troopers and department facilities will be utilized to watch for unsafe and reckless motorists.

"We urge every Texas driver to join with us in this all-out effort to make the July 4th holiday period as safe as possible," he added.
